Dear neighbours!

We are a group of people who are frustrated by the many injustices in society, including in Lobeda. Germany calls itself a "welfare state", while unemployment benefits are too low, asylum for refugees is constantly being eroded and rents are rising so high that they are no longer affordable on a normal salary.

We want to do something about it!

We have created an advisory service that is there to support people with questions and problems, be it with the job center, the landlord or with questions about asylum and residence.

But this is just the beginning!

With our growing neighbourhood union in Lobeda, we are creating opportunities for mutual support. Solidarity is our strongest tool against unjust conditions. In the union, we all stick together. No one stands alone. One for all and all for one! This is how we fight for the rights to which we are entitled!

Our meetings are based on respect and friendliness, every person is met with openness and listened to. No matter what skin color, gender, body, sexuality or religion, everyone has their place with us!

We don't have bosses, instead we all make decisions together and on an equal footing. Every voice counts, every contribution is important. Unlike in state institutions, we want to manage ourselves and make grassroots democratic decisions.

Times are confusing and interrelationships are becoming increasingly complex. We want to create educational opportunities to discuss issues together and to support, learn and understand each other.

We cordially invite you to join us. For a better Lobeda and more solidarity and justice in our everyday lives!
